

ADDITIONAL SUPPORTS

for families with a child who is deaf
or hard of hearing and additional
medical or developmental needs

LEARNING OBJECTIVES

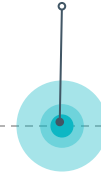

Describe 2 unique needs of families with infants who have medical needs

Identify 3 sources of support for families of infants who are Deaf Plus

Locate 2 state/local providers of diagnosis specific support for families

MARTHA'S ORIGIN STORY: Tiny Superhero

- ▷ High risk pregnancy
- ▷ Threatened miscarriage at 14w
- ▷ Growth deficiency at 16W
- ▷ Heart condition recognized at 24W
- ▷ Genetics seemed fine from amnio
- ▷ Heart condition would require open heart surgery at 7 days

Maternal Stress HIGH

MARTHA'S ORIGIN STORY: Tiny Superhero

- ▷ 6 days old before being held
- ▷ 7 days old open heart surgery
- ▷ 4 weeks old failure to thrive
- ▷ 5 weeks old congestive heart failure
- ▷ 7 weeks old gastrostomy tube placement
- ▷ 9 weeks old referred hearing screening
- ▷ 9 weeks old discharged from hospital

Infant Stress HIGH

MARTHA'S ORIGIN STORY: Diagnosis was a long road

- ▶ Newborn screening 3 times
- ▶ 3 failed outpatient ABR attempts
- ▶ No audiologist at preferred hospital
- ▶ T-tubes, T&A removal at 10 months
- ▶ Imaging: absent semicircular canals, bilateral mondini and deformities of the ossicles at 11 months
- ▶ Sleep deprived ABR at 13 months
- ▶ Aided at 14 months
- ▶ Official CHARGE syndrome diagnosis at 15 months

DELAYED diagnosis

New reality: CHAOS

- ▶ Left hospital EVERY DAY at 2:30 so I could pick up my other kids and feed them dinner
- ▶ Repeated episodes of respiratory distress and trips to the ER
- ▶ New kid and new equipment - everywhere
- ▶ Unsure of prognosis
- ▶ Increased demands on parents and siblings
- ▶ Schedule and activities did not return to normal

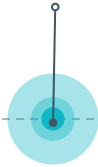

New reality: We could not keep up

- ▶ Social supports dissolved
- ▶ New family priorities
- ▶ Extreme fatigue
- ▶ Pressure at work after time out of office
- ▶ Workplace culture not amenable to FMLA
- ▶ Understanding of co-workers and partners wore thin after 6 months
- ▶ I was asking him to be a decision partner, but I didn't give him information
- ▶ Financial concerns related to medical bills

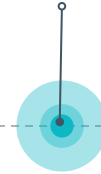

Paternal stress HIGH

A FEW OF MY FAVORITE THINGS

- ▶ NOT exhaustive
- ▶ Intended to get you thinking

GOVERNMENT AND WELFARE AGENCIES

- ▶ **State Medicaid**
- ▶ **Katie Beckett Waivers**
- ▶ **Social Security Office**
- ▶ **Regional Center**
- ▶ **Governor's Disability Council**
- ▶ **State Commission for the Deaf**

MEDICAL RESOURCES

- ▶ **Regional Genetics Networks**
<https://nccrcg.org/>
- ▶ **Shriners Children's**
<https://www.shrinerschildrens.org/en>
- ▶ **Family Navigation Network**
- ▶ **Office of Minority Health and Equity**

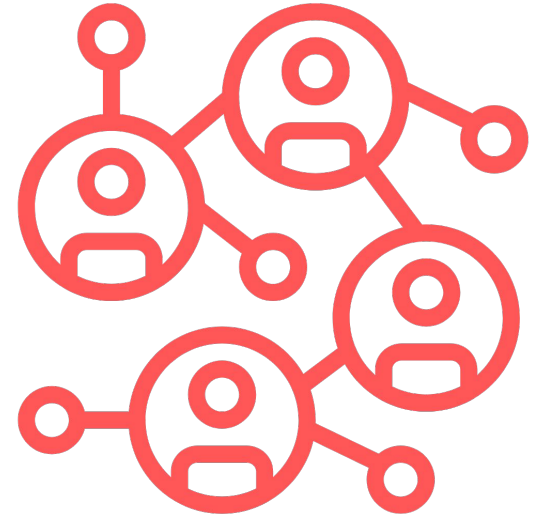

EDUCATIONAL SUPPORT

- ▶ **Early Intervention Intake**
- ▶ **Child Find Intake**
- ▶ **Early Childhood Technical Assistance**
- ▶ **Parent Training and Information Center**
- ▶ **Local library - special needs library services**

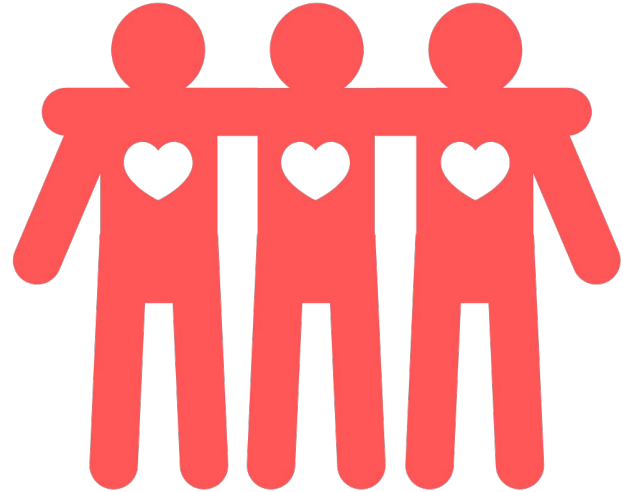

DEAFBLIND NETWORK

- ▶ **State Deafblind Project**
- ▶ **National Center on Deaf-Blindness**
- ▶ **National Family Association for Deaf-Blind**
- ▶ **Helen Keller National Center**

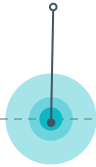

SOCIAL AND RECREATIONAL SUPPORT

- ▶ **Caregiver Action Network**
caregiveraction.org/about
- ▶ **Lighthouse Guild**
lighthouseguild.org/support-services
- ▶ **National Organization for Rare Disease**
rarediseases.org/living-with-a-rare-disease/
- ▶ **Hands & Voices DHH Plus Parent Facebook Group**
facebook.com/groups/deafhardofhearingplus
- ▶ **Local Facebook Groups**

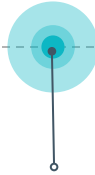

LEARNING OBJECTIVES

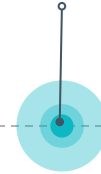

Describe 2 unique needs of families with infants who have medical needs

Identify 3 sources of support for families of infants who are Deaf Plus

DIFFICULT PROMISE TO KEEP

- ▶ Hope to inspire you to make connections
- ▶ Find strength in the CSF Liaison Program

 Date Updated: <</2022>>

<<ENTER YOUR STATE>> State Resource List
 <<ENTER YOUR NAME>>, Family Liaison <<ENTER EMAIL>>, <<ENTER PHONE#>>

| Resource Name & Description | Contact Name & Title | Website & Phone number |
|---|----------------------|---|
| State Deafblind Project State deaf-blind projects provide a range of services to improve results for children with deaf-blindness and their families. | | https://www.nationaldb.org/state-deaf-blind-projects/ |
| Early Intervention Intake The intake/screening step in the early intervention process is often the first face-to-face contact with the family. The intake/screening involves an interview with the parents to understand what concerns, if any, the family has. | | https://www.parentcenterhub.org/oi-overview/ |
| Child Find Intake | | https://agesandstages.com/about-asq/who-uses-asq/child-find/ |

DIAGNOSIS SPECIFIC RESOURCES

- ▶ **Autism speaks**
- ▶ **National CMV**
- ▶ **Everylife Foundation for Rare Disease**
- ▶ **GFPD**
- ▶ **Down Syndrome Society**
- ▶ **NORD**
- ▶ **Usher Syndrome Coalition**
- ▶ **CHARGE Syndrome Foundation**
- ▶ **Connect families when you can in a meaningful way**
“Could you share ONE thing that helped you the most in the first 6 months?”

BUILD YOUR OWN NETWORK

- ▶ **Invite organizations to provide training**
- ▶ **Host joint family events**
- ▶ **Ask families what they need**
- ▶ **Support community events**
- ▶ **Like/Share/Follow on social media**
- ▶ **Create relationships not spreadsheets**

The best and most beautiful things in the world cannot be seen or even touched. They must be felt with the heart.

Helen Keller

June 8, 1891; Letter to the Reverend Phillip Brooks

YOU ARE NOT ALONE

Reach out if you need a reminder!
